

I would just like to express my gratitude to the FOTH group for allowing me to participate in the construction of the school on the Hudad plateau

.

My experience was exhilarating on multiple levels. The environment was spectacular, the local people welcoming & genuinely friendly. The team working on the school were very inclusive & my efforts were always appreciated.

The skill levels amongst the group varied but the synergy was amazingly coherent in a wave of enthusiasm & positivity.

I would very much like to return next year

Alan Mitchell October 2017
